

Off Grid Digest by AmpedIG - an [AmpedIG](#) innovation project

Purpose: Allow Zoleo + Apple end users to receive a period email digest of missed calls and messages while they are "off-grid".

Detail: Thanks to Zoleo's unique ability to assign a @Zoleo email address to each of it's user's AmpedIG was able to create an app to harvest messages and missed call information and forward to Zoleo. This adds additional convenience as Zoleo user's will not need to share their Zoleo number with all their contacts.
